

Email Pitch

Hello *Contact Name*,

My name is Bryan and I'm a freelance graphic and web designer based out of Baltimore. I saw your post for a *position name* for *tasks* for *company name* and I am interested in the opportunity to work on this project. *My reasons for wanting to work on this project are... and my experience prepares me for this because. I also will mention some other skills I possess that you may be interested in.*

I have been a professional freelance web and graphic designer for several years now doing work for companies of all sizes from L.L. Bean to local non-profits. If you are interested in using my services please visit <http://www.bryanconnor.com>, my personal portfolio and blog. On the site you'll find my complete portfolio of web and graphic design work for various companies and organizations. You can also find my resume on the 'About' page.

I design sites that are simple and easy to use at their core. I feel that I can provide you with a site that is both professional and visually pleasing and one that echoes the styles of sites you have provided in your post. I am freelancing full time right now and I would be able to begin immediately on your project. Your budget is also reasonable for this project at a glance and I'd like to find out a little more about the project and what it would entail. I am always available by e-mail or phone (207-590-4534) and I will work one on one with you to get you the site you want if you are interested.

Thanks and please let me know if you have any questions.

Bryan Connor
